

## Computer stuff

	<b>Beelink Mini Computer</b> (powerful enough for PS3)	<b>\$409</b>	<a href="https://a.co/d/iDLHbwh">https://a.co/d/iDLHbwh</a>
	<b>Beelink Mini Computer</b> (any pre-2000 emulator, + PS2 and PSP)	<b>\$145</b>	<a href="https://a.co/d/9zBHQy2">https://a.co/d/9zBHQy2</a>
	<b>Mini Keyboard</b>	<b>\$15</b>	<a href="https://a.co/d/2Yd5avq">https://a.co/d/2Yd5avq</a>
	<b>Mini UPS</b>	<b>\$54</b>	<a href="https://a.co/d/e606yva">https://a.co/d/e606yva</a>
	<b>27" Monitor</b> (make sure it fits in your cabinet. You may want the 24" model instead)	<b>\$99</b>	<a href="https://a.co/d/95A2azf">https://a.co/d/95A2azf</a>

## DIY controllers

	<b>Pro controller board</b> (doesn't come with any buttons) <a href="#">Linux Drivers</a> <a href="#">driver creator website</a>	<b>\$55</b> +\$19 shipping from UK	<a href="https://www.ultimarc.com/control-interfaces/mini-pac-en/mini-pac/?variation_id=375">https://www.ultimarc.com/control-interfaces/mini-pac-en/mini-pac/?variation_id=375</a>
	<b>Basic Joysticks and buttons kit</b> (1 1/8" hole) You could buy all the buttons and sticks separately, but this kit has what you need for 2 players cheaper than if you bought the same stuff separately. You will be abandoning the control boards	<b>\$45</b>	<a href="https://a.co/d/aIAT77V">https://a.co/d/aIAT77V</a>
	<b>Extra Black buttons</b> (10 pack) (1 3/16" hole) These are needed for the extra buttons used in Playstation games, and also volume and pinball side buttons for the cabinet.	<b>\$10</b>	<a href="https://a.co/d/3qGw2wO">https://a.co/d/3qGw2wO</a>
	<b>Cables for black buttons</b> May not be needed if you get all the extra wires with the Pro controller board.	<b>\$10</b>	<a href="https://a.co/d/7ZB86iC">https://a.co/d/7ZB86iC</a>

	<b>Drill bit for black buttons</b> <b>(1 3/16")</b> This also works for the colored buttons, but they are slightly smaller so they have a little wiggle room. If you don't like that you can get the correct size paddle bit for them.	<b>\$8</b>	<a href="https://a.co/d/d8xjwge">https://a.co/d/d8xjwge</a>
	<b>Analog joystick</b> (for PSP games like SSX and Angry Birds) Only need 1 since PSP is only 1 player.	<b>\$59</b> +\$19 shipping from UK	<a href="https://www.ultimarc.com/arcade-controls/joysticks/ultrastik-360-oval-top-clo">https://www.ultimarc.com/arcade-controls/joysticks/ultrastik-360-oval-top-clo</a> <a href="https://www.ultimarc.com/arcade-controls/joysticks/ultrastik-360-oval-top-clo">ne/</a>
	<b>Light Gun</b> (for NES shooter games like Duck Hunt)	<b>\$95</b> +\$19 shipping from UK	<a href="https://www.ultimarc.com/light-guns/aimtrak-light-gun/aimtrak-light-gun-with-out-recoil/">https://www.ultimarc.com/light-guns/aimtrak-light-gun/aimtrak-light-gun-with-out-recoil/</a>

### **Alternative Prebuilt controllers**

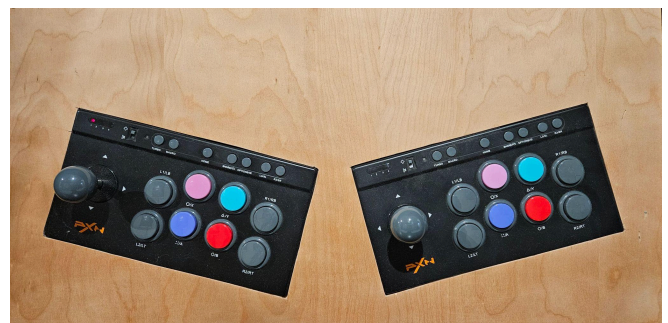

Works with all emulators.

Joystick/Button controllers x2

\$40 <https://a.co/d/caVbJzi>

USB toggles

\$11 <https://a.co/d/4adiyyF>

---

## **Optional stuff**

Pedels (for driving games)

\$12 <https://a.co/d/jfkUX0Y>

Button cover (prevents accidental game resets)

\$10 <https://a.co/d/3Z7To1L>

Speakers

\$99 <https://a.co/d/j9oLV9I>

Keyboard drawer

\$37 <https://a.co/d/hB4qaMI>

NES gun Air mouse

\$23 <https://a.co/d/1CWYjF>

NES gun housing

\$17 <https://a.co/d/i49xpW8>

USB port extenders

\$11 <https://a.co/d/2Y3y159>

---
